CLOSED PUBLIC HEARING: Chairman Lucas closed the public hearing at 7:15 p.m.

The board members discussed the request.

Mr. Lucas made a motion to uphold the NKAPC staff's favorable recommendation of the proposed conditional use permit to establish a church, consisting of an existing sanctuary, one (1) accessory building and one (1) off-street parking area within an R-1C Zone.

Request A – Conditional Use Permit.

1. The church as been in operation since prior to the adoption of the current zoning regulations. Continued operation of the church would be desirable as it provides a service and a facility that contributes to the general well being of the neighborhood and community.
2. Granting the church a conditional use permit would bring the church into conformity with the current zoning regulations.
3. Continued operation of the church will not be detrimental to the health, safety, or general welfare of persons residing or working in the vicinity, or injurious to property or improvements in the vicinity.

Mr. Osterhage made a second to the motion. The City Clerk called the roll.

Chairman Lucas	Yes
Mr. Osterhage	Yes
Mr. Meyer	Yes

MOTION CARRIED

Mr. Lucas made a motion to uphold the NKAPC staff’s favorable recommendation of the 20.3 foot variance to the side yard setbacks for a conditional use located with an R-1C Zone and for the proposed 27.1 foot variance to the rear yard variance for a conditional use located within the R-1C Zone.

Requests B and C – Side and Rear Yard Variances

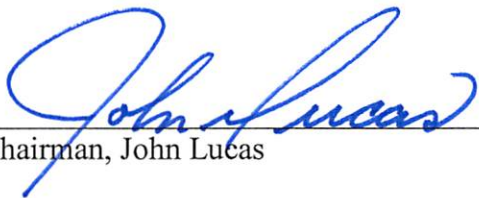

1. The requested variance arises from special circumstances which do not generally apply to land in the general vicinity, or in the same zone. All parcels surrounding the site in question contain only one primary building. There is currently what could be used as three primary structures located on the site in question which is inconsistent with Section 9.10 which states that there shall only be one (1) principal structure located on a lot. Approval of the proposed variance would bring the property into conformity with the current zoning regulations.
2. The proposal does not include the construction of any improvements to the site in question which will further encroach on the distances that each building maintains from one another. As such, approval of the proposed variance is not going to have any additional impact than those conditions presently in existence on the site and in the surrounding areas. Therefore, the strict application of the zoning regulations would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.
3. The existing single family home, currently leased by the church, is a reasonable and appropriate use of the land and is consistent and compatible with the other uses, primarily single family residential dwellings, located within the surrounding areas.

Mr. Meyer made a second to the motion. The City Clerk called the roll.

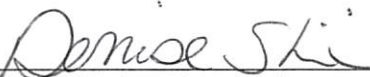

Chairman Lucas	Yes
Mr. Meyer	Yes
Mr. Osterhage	Yes

MOTION CARRIED
