ADJOURNMENT

This is a caucus meeting. As are all city meetings, these are open to the public and the citizens are encouraged to attend and see the workings of their elected body. There will be no votes taken by this commission during any caucus meeting. It is a working city meeting whereby the commission meets with relative parties on on-going city business. In this caucus format, the commission will not be hearing from the public. The public will be permitted to address their concerns during regular commission meetings.
